

Design Engineer Level II

Deere-Hitachi Construction Machinery Corporation in Kernersville, NC, is a premier DFT and ISO 9001-certified employer in the triad area. Located in a state-of-the-art facility, we manufacture 12-47 metric ton hydraulic excavators. Deere-Hitachi is looking for a Design Engineer Level II. The successful candidate will be responsible for improving product quality and rapidly respond to field issues. Their responsibility will include both Deere-Hitachi and Japan-built models and will involve multiple functional areas including engines, hydraulics, structures, cooling, electrical and software.

A successful candidate should meet the following requirements:

- Four year degree in mechanical, electrical or hydraulic engineering, or related field.
- Experience in design, product development and production implementation of hydraulic excavators or similar machinery. Preference is experience in electrical design and/or software development.
- Excellent interpersonal, organizational, problem solving and communication skills
- Demonstrated leadership / presentation skills
- Strong computer skills in Microsoft Office (Word, Excel, PowerPoint)

Deere-Hitachi offers highly competitive compensation and outstanding benefits (including medical and dental insurance, an educational tuition assistance program and a 401(k) plan). Deere-Hitachi is a drug-free/safe work environment and affirmative action employer.
