

## **Facilities & Environmental Engineer I**

Deere-Hitachi Construction Machinery Corporation in Kernersville, NC, is a premier DFT and ISO 9001-certified employer in the triad area. Located in a state-of-the-art facility, we manufacture 12-47 metric ton hydraulic excavators. Deere-Hitachi is looking for a Facilities & Environmental Engineer I. The successful candidate will manage and coordinate environmental processes and programs. This will include, but not be limited to the following:

- Compile necessary data, documentation and correspondence to comply with environmental regulations and the John Deere Environmental Management System (EMS) requirements
- Lead environmental risk reduction, energy management, and waste reduction projects
- Assist in environmental training
- Manage facilities systems, infrastructure and grounds
- Lead facility construction and improvement projects
- Participate in external benchmarking to ensure efficient, cost effective, and safe facilities and environmental processes
- Maintain factory layouts
- Participate on cross functional teams

The successful candidate should meet the following requirements:

- Four year engineering or engineering technology degree; preferred concentration in Civil, Mechanical or Environmental
- Computer skills in Microsoft Office (Word, Excel, PowerPoint)
- Working knowledge in 2D and 3D CAD software
- Must be able to manage projects including planning, installation, and implementation
- Good attention to detail
- Strong oral and written communication skills
- Good interpersonal skills

Deere-Hitachi offers highly competitive compensation and outstanding benefits (including medical and dental insurance, an educational tuition assistance program and a 401(k) plan). Deere-Hitachi is a drug-free/safe work environment and affirmative action employer.
